TMFC046 – Workforce Management

1. Overview

Component Name	ID	Description	ODA Function Block
Workforce Management	TMFC046	Workforce Management component provides capabilities to describe teams, organizations, skills and availability of sales / technical experts. It provides the ability to reserve time slots to carry out assigned tasks (internal or customer facing). It allows the reservation (and updates/rescheduling) of appointments and interventions.	Production

2. eTOM Processes, SID Data Entities and Functional Framework Functions

2.1. eTOM L2 - SID ABEs links

2.2. eTOM business activities

eTOM business activities this ODA Component is responsible for:

Identifier	Level	Business Activity Name	Description
1.5.4	L2	Resource Readiness & Support	Manage resource infrastructure to ensure that appropriate application, computing and network resources are available and ready to support the Fulfillment, Assurance and Billing processes in instantiating and managing resource instances, and for monitoring
1.5.4.8	L3	Manage Field Workforce	"Managing the staff performing manual activities along with managing the actual activity being performed. - Note: The current focus of the Manage Field Workforce processes is field Staff and others managed through work orders, etc. There is opportunity fo

2.3. SID ABEs

SID ABEs this ODA Component is responsible for:

SID ABE L1	SID ABE L1 Definition	SID ABE L2 (or set of BEs)	SID ABE L2 Definition
Workforce ABE	The Workforce ABE models the human and other field resources with their roles, skills, calendar, and other characteristics. It also models the work description and reservation and assignment of a technician to a task. It contains Work, Work Specification, WorkforceResource, and WorkforceSchedule.		<i>(no description available)</i>

2.4. Functional Framework Functions

Function ID	Function Name	Aggregate Function L1	Aggregate Function L2	Function Description
-------------	---------------	-----------------------	-----------------------	----------------------

119	Center Time Management	Workforce Operational Management	Workforce Activity Tracking	Center Time Management supports all of the time management of a service provider Agent/CSR/LCM etc. including tracking of hours worked, hours spent in training and other activities. It includes all time attributes used in the scheduling of resources to meet center SLAs. This function would also track time associated with a specific activity whether it be a short (single contact) or long running, multiple contact and team related activity. This aspect of time may span center resources.
-----	------------------------	----------------------------------	-----------------------------	---

1326	Work List Management	Workforce Operational Management	Workforce Activity Tracking	Work List Management function supports organizing and prioritizing tasks for individuals or groups. It includes: / 1. Task Identification and Prioritization: Worklist managers determine the importance of tasks and prioritize them based on urgency and impact. / 2. Task Assignment: They allocate tasks to the appropriate individuals or teams, ensuring the right people are working on the right tasks. / 3. Workflow Optimization: Worklist management streamlines processes, reducing delays and bottlenecks. / 4. Monitoring Progress: Managers track task completion and ensure adherence to deadlines. / 5. Resource Allocation: They allocate resources like time, manpower, and equipment effectively. / 6. Communication Facilitation: They foster communication among team members and stakeholders. / 7. Risk Mitigation: Managers identify and address potential risks to prevent disruptions in workflow.
113	Care-center Compliance Management	Workforce Operational Management	Workforce Organisation	Care-center Compliance Management manages compliance with customer service / work-center methods and procedures.

116	Center Activity Management	Workforce Operational Management	Workforce Organisation	Center Activity Management includes the necessary functionality to track activities performed within a work center. These activities range from orders placed, sales closed, problems resolved, ticket closed, etc. Most work centers incorporate a detailed activity tracking mechanism with associated reporting for individual agent performance and is typically rolled up to support center-level performance as well.
449	Resource Change Project Collaboration	Workforce Operational Management	Workforce Organisation	Resource Change Project Collaboration provides interfaces to Workforce Management, supports collaborative project management across business boundaries and supports links to vendors ERP - via B2B portals and to internal network engineering duties for in-station and street activities.
1184	Workforce Agenda Booking	Workforce Operational Management	Workforce Appointment Management	The Workforce Agenda Booking Function enables to manage Workforce appointment with any Party such as Customer, Business Partner and tracks the appointment in the workforce calendar.

1183	Workforce Availability Check	Workforce Operational Management	Workforce Appointment Management	The Workforce Availability Check Function enables to check the availability of Workforce.
114	Care-center Case Queing	Workforce Operational Management	Workforce Schedule Management	Care-center Case Queuing addresses the work queuing and work assignment for cases received from various channels including incoming calls, email, and back-office/front-office work distribution and queuing. Work Queuing can be on-line (active customer contact) or off line (no customer "on the line").
554	Workforce Appointment Schedule Configuration	Workforce Operational Management	Workforce Schedule Management	Workforce Appointment Schedule Configuration provides configuration of rules and routines for the workforce appointment schedule.
555	Workload Forecasting	Workforce Operational Management	Workforce Schedule Management	Workload Forecasting provides forecasting of the workload and respective assignable staffing requirements on a daily, weekly, and longer period basis.
556	Workforce Availability Management	Workforce Operational Management	Workforce Schedule Management	Workforce Availability Management provides management of staff availability, including vacation time.
558	Workforce Dispatchability Management	Workforce Operational Management	Workforce Schedule Management	Workforce Dispatchability Management provides management of the dispatchable technicians, including skill sets.

482	Workforce Management	Workforce Operational Management	Workforce Schedule Management	Workforce Management function coordinate the availability and deployment of workforce resources to their in-service locations for e.g. preventative maintenance and change management.
561	Workforce Scheduling	Workforce Operational Management	Workforce Schedule Management	Workforce Schedule Management function provide the necessary functionality to manage the work schedule, appointment schedule and resource schedule of the dispatchable workforce.

3. TM Forum Open APIs & Events

The following part covers the APIs and Events; this part is split in 3: - List of Exposed APIs - This is the list of APIs available from this component. - List of Dependent APIs - In order to satisfy the provided API, the component could require the usage of this set of required APIs. - List of Events (generated & consumed) - The events which the component may generate are listed in this section along with a list of the events which it may consume. Since there is a possibility of multiple sources and receivers for each defined event.

3.1. API Context Diagram

(SVG source: [TMFC046_API_Context.svg](#) — hand-drawn rather than PlantUML for this one diagram, since PlantUML's automatic layout couldn't give each API its own straight, individually-anchored connector at a chosen height. Generated by the `component-specification-documentation` skill's `scripts/render_api_context_svg.py`.)

3.2. Exposed APIs

API ID	API Name	Mandatory / Optional	API Version	Resource	Operations
TMF646	Appointment Management API	Mandatory	4	appointment	GET, GET /id, POST, PATCH /id, DELETE /id
TMF646	Appointment Management API	Mandatory	4	searchTimeSlot	GET, GET /id, POST, PATCH /id, DELETE /id
TMF701	UNRESOLVED-TMF701	Optional	4	processFlow	GET, GET /id, POST, DELETE /id
TMF701	UNRESOLVED-TMF701	Optional	4	taskFlow	GET, GET /id, PATCH /id

3.3. Dependent APIs

API ID	API Name	API Version	Mandatory / Optional	Resource	Operations
TMF632	Party Management API	5	Optional	individual	GET, GET /id

TMF632	Party Management API	5	Optional	organization	GET, GET /id
TMF632	Party Management API	4	Optional	individual	GET, GET /id
TMF632	Party Management API	4	Optional	organization	GET, GET /id
TMF669	Party Role Management API	5	Optional	partyRole	GET, GET /id
TMF669	Party Role Management API	4	Optional	PartyRole	GET, GET /id
TMF701	UNRESOLVED-TMF7014		Optional	processFlow	POST, GET, GET /id, PATCH

3.4. Events

The diagram illustrates the Events which the component may publish and the Events that the component may subscribe to and then may receive. Both lists are derived from the APIs listed in the preceding sections.

Published Events

API ID	API Name	Event Resources
--------	----------	-----------------

TMF646	Appointment Management API	appointmentStateChange appointmentCreateEvent appointmentAttributeValueChangeEvent appointmentDeleteEvent searchTimeSlotCreateEvent searchTimeSlotAttributeValueChangeEvent searchTimeSlotStateChangeEvent searchTimeSlotDeleteEvent
--------	----------------------------	---

Subscribed Events

API ID	API Name	Event Resources
TMF669	Party Role Management API	partyRoleCreateEvent partyRoleAttributeValueChangeEvent partyRoleStateChangeEvent partyRoleDeleteEvent
TMF701	UNRESOLVED-TMF701	processFlowCreateEvent processFlowStateChangeEvent processFlowStateDeleteEvent processFlowStateAttributeValueChangeEvent taskFlowCreateEvent taskFlowStateChangeEvent taskFlowDeleteEvent taskFlowAttributeValueChangeEvent taskFlowInformationRequiredEvent

4. Machine Readable Component Specification

Refer to the ODA Component Directory on the TM Forum website for the machine-readable component specification files for this component.

5. References

5.1. TMF Standards related versions

Standard	Version(s)
eTOM	v23.0.1
SID	v25.0
Functional Framework	v23.0

5.2. Jira References

(none currently listed)

5.3. Further resources

1. IG1228: please refer to IG1228 for defined use cases with ODA components interactions.

6. Administrative Appendix

6.1. Document History

6.1.1. Version History

Version Number	Date	Modified by	Description of changes
1.0.0	30-Apr-2024	Amaia White	v1.0.0 Initial release final edits prior to publication
1.1.0	03-Dec-2024	Anastasios Sarantis	Updates in v1.1.0

1.1.0	27-Dec-2024	Rosie Wilson	Final administrative edits
1.1.1	11-Mar-2025	Gaetano Biancardi	Maturity level corrected to General Availability
1.1.1	13-Mar-2025	Rosie Wilson	Final administrative edits
1.1.2	09-Jul-2025	Rosie Wilson	Updates to description per agreed YAML updated on 03 Jun 2025. Final administrative edits

6.1.2. Release History

Release Status	Date Modified	Modified by	Description of changes
Pre-production	30-Apr-2024	Amaia White	1st version of document v1.0.0
Pre-production	10-Jun-2024	Adrienne Walcott	Updated to Member Evaluated status
Pre-production	27-Dec-2024	Rosie Wilson	Updated to release v1.1.0
Pre-production	17-Feb-2025	Adrienne Walcott	Updated to Member Evaluated status
Pre-production	13-Mar-2025	Rosie Wilson	Updated to release v1.1.1
Production	09-May-2025	Adrienne Walcott	Updated to reflect TM Forum Approved status
Pre-production	09-Jul-2025	Rosie Wilson	Updated to release v1.1.2
