TMFC029 – Payment Management

1. Overview

Component Name	ID	Description	ODA Function Block
Payment Management	TMFC029	Payment Management component manages methods used by parties to make payments. It also administers payment plans, handles payments, assigns payments against bills, settlements, and other objects requiring payments.	Party Management

2. eTOM Processes, SID Data Entities and Functional Framework Functions

2.1. eTOM business activities

eTOM business activities this ODA Component is responsible for:

Identifier	Level	Business Activity Name	Description
1.3.10	L2	Customer Bill Payments & Receivables Management	Ensure that enterprise revenue is collected through pre-established collection channels and put in place procedures to recover past due payments.

1.3.10.2	L3	Manage Customer Payments	The purpose of the Manage Customer Payments process is to collect payments made by the customer and reconcile the payments to the invoices. This process is meant to match these payments with the services/invoices delivered to this customer. These processes can include credit/debit/EFT payments using various channels, either directly or through third parties, and cash or check payments, either directly or through third parties. / In all the above cases these processes are responsible for the processes interacting with the customers and/or the third parties. The processes are also responsible for establishing managing back-end bank accounts for receipt of the customer payments and for the transfer of funds collected by third parties. These processes are responsible for reconciling the money received into the bank accounts against the payments expected in the invoices. Additionally, these processes inform the Financial Management on all those payments for updating the ledger.
1.6.16	L2	Business Partner Payments & Receivables Management	Party Bill Payments & Receivables Management is responsible for management of methods used by parties to make payments, administers payment plans, handles payments, and collects debt.
1.6.16.1	L3	Business Partner Payment Management	Manage methods used by parties to make payments, administer payment plans, handle payments, and collect debt.
1.6.16.1.1	L4	Business Partner Payment Handling	Receive payments from parties, remit payments to parties, and apply payments to any form of request for payment, such as bills, settlements or other forms of revenue sharing, purchases, charges, or payment plans as needed.

1.6.16.1.2	L4	Business Partner Payment Method Management	Define and manage the various types of payment methods and the methods by which an individual Business Partner may make an inbound and/or outbound payment. Define and manage the various types of payment methods and the methods by which an individual Business Partner may make an inbound and/or outbound payment.
1.6.16.1.3	L4	Business Partner Payment Plan Administration	Develop and manage payment plans that specify how a Business Partner will pay over a specified period of time for a product that has been acquired. This process may also develop and manage template Business Partner payment plans that define typical payment plans that are used.

2.2. SID ABEs

SID ABEs this ODA Component is responsible for:

SID ABE Level 1	SID ABE Level 2 (or set of BEs)	SID ABE L1 Definition	SID ABE L2 Definition
Party Payment		The Party Payment ABE contains all Entities required to describe a payment such as PaymentMethod and BankAccount.	<i>(no description available)</i>

2.3. eTOM L2 - SID ABEs links

2.4. Functional Framework Functions

Function ID	Function Name	Function Description	Aggregate Function Level 1	Aggregate Function Level 2
30	Advance Payment Acceptance	Advance Payment Acceptance; Advance Payments are accepted before initiation of service - usually at time of ordering. Interest is not accrued on advance payments.	Customer Financial Management	Payment Management
33	Deposit Management	Deposit Management manages amounts held as a guarantee of payment. Interest may be accumulated on this deposit amount. If payment is not made in a timely manner, a portion of this deposit may be applied to the outstanding balance. Based on business policy, deposits may be refunded with applicable interest after some period of time. Deposit Management maintains and executes on these policies.	Customer Financial Management	Payment Management
153	Collection Payment Agreement Monitoring	Collection Payment Agreement Monitoring monitors the inclusion of a payment schedule or a promise of payment, negotiated with the customer during the dunning process.	Customer Financial Management	Payment Management

156	Collection Payment Planning	Collection Payment Planning is creating a payment plan based on system recommendation or CSR decision to build a payment plan. This is a dunning activity.	Customer Financial Management	Payment Management
157	Collection Payment Plan Monitoring	Collection Payment Plan Monitoring monitors the payment plan execution and trigger events for the collection monitoring process. This is a dunning activity.	Customer Financial Management	Payment Management
171	Customer Support Payment Management	Customer Support Payment Management function provides front end functionality for the CSR in their day-to-day payment support related activities.	Customer Financial Management	Payment Management
251	Customer Bill Payment	Customer Bill Payment provide an internet technology driven interface to the customer to undertake direct payments	Customer Financial Management	Payment Management
321	Bank Interface Direct Debit Payment Receiving	Bank Interface Direct Debit Payment Receiving supports receiving of direct debit payments from the nominated (specified) bank accounts.	Customer Financial Management	Payment Management
322	Payment Transaction Refunding	Payment Transaction Refunding supports refund transactions based on the saved payment transaction details.	Customer Financial Management	Payment Management

323	Payment Interface Management	Payment Interface Management manages interfaces between the service provider and payment channel organizations	Customer Financial Management	Payment Management
324	Financial Transaction Settlement	Financial Transaction Settlement submits authorized transactions to the financial institutions for settlement.	Customer Financial Management	Payment Management
325	Financial Institution Reconciliation	Financial Institution Reconciliation supports the reconciliation process with financial institutions	Customer Financial Management	Payment Management
326	Financial Institution Payment Authorization Linking	Financial Institution Payment Authorization Linking liaises with financial institutions for payment authorization	Customer Financial Management	Payment Management
327	Remittance Details Access	Remittance Details Access; Provides remittance details to the bill accounts receivable management application within the service provider billing system.	Customer Financial Management	Payment Management
328	Financial Institution Security Verification	Financial Institution Security Verification supports financial institutions' security standards (e.g., "Verified by Visa" and "MasterCard SecureCode").	Customer Financial Management	Payment Management

658	Partner Payments Management	Partner Payments Management handles payments in the area of Supplier/Partner billing and settlement. Logging and tracking of full or partial payments.	Business Partner Financial Management	Business Partner Payment Management
936	Customer Support Invoice Payment	Customer Support Invoice Payment function is to accept customer payment via the customer service representative (CSR) for immediate Payment of Invoices using existing or new pay means.	Customer Financial Management	Payment Management
937	Customer Support Prepaid Recharge Payment	Customer Support Prepaid Recharge Payment function is to accept customer payment via the customer service representative (CSR) for Prepaid recharge using vouchers or other pay means	Customer Financial Management	Payment Management
1065	Procurement Order Payment	Procurement Order Payment provides payment of supplier order.	Business Partner Financial Management	Business Partner Payment Management

3. TM Forum Open APIs & Events

The following part covers the APIs and Events; this part is split in 3: - List of Exposed APIs - This is the list of APIs available from this component. - List of Dependent APIs - In order to satisfy the provided API, the component could require the usage of this set of required APIs. - List of Events (generated & consumed) - The events which the component may generate are listed in this section along with a list of the events which it may consume. Since there is a possibility of multiple sources and receivers for each defined event.

3.1. API Context Diagram

(SVG source: [TMFC029_API_Context.svg](#) — hand-drawn rather than PlantUML for this one diagram, since PlantUML's automatic layout couldn't give each API its own straight, individually-anchored connector at a chosen height. Generated by the *component-specification-documentation skill's scripts/render_api_context_svg.py*.)

3.2. Exposed APIs

API ID	API Name	Mandatory / Optional	API Version	Resource	Operations
TMF670	Payment Method Management API	Mandatory	4	paymentMethod	GET GET /id POST PATCH DELETE
TMF676	Payment Management API	Mandatory	4	payment refund	GET GET /id POST
TMF701	Process Flow Management API	Optional	4	processFlow taskFlow	POST GET GET /id DELETE PATCH

3.3. Dependent APIs

API ID	API Name	API Version	Mandatory / Optional	Resource	Operations
TMF632	Party Management API	5	Optional	individual organization	GET GET /id
TMF632	Party Management API	4	Optional	individual organization	GET GET /id
TMF666	Account Management API	5	Optional	billFormat billPresentationMedia billingAccount billingCycleSpecification financialAccount partyAccount settlementAccount	GET GET /id
TMF666	Account Management API	4	Optional	partyAccount billingAccount settlementAccount financialAccount billingCycleSpecification billFormat billPresentationMedia	GET GET /id
TMF673	Geographic Address Management API	4	Optional	geographicAddressValidation geographicAddress geographicSubAddress	GET GET /id

TMF674	Geographic Site Management API	4	Optional	geographicSite	GET GET /id
TMF675	Geographic Location Management API	4	Optional	geographicLocation	GET GET /id

3.4. Events

The diagram illustrates the Events which the component may publish and the Events that the component may subscribe to and then may receive. Both lists are derived from the APIs listed in the preceding sections.

Published Events

API ID	API Name	Event Resources
TMF676	Payment Management API	PaymentAttributeValueChangeEvent PaymentCreateEvent PaymentDeleteEvent PaymentStatusChangeEvent RefundAttributeValueChangeEvent RefundCreateEvent RefundStatusChangeEvent
TMF670	Payment Method Management API	PaymentMethodAttributeValueChangeEvent PaymentMethodCreateEvent PaymentMethodDeleteEvent PaymentMethodStatusChangeEvent
TMF701	Process Flow Management API	ProcessFlowCreateEvent ProcessFlowStateChangeEvent ProcessFlowStateDeleteEvent ProcessFlowStateAttributeValueChangeEvent TaskFlowCreateEvent TaskFlowStateChangeEvent TaskFlowDeleteEvent TaskFlowAttributeValueChangeEvent TaskFlowInformationRequiredEvent

Subscribed Events

(none listed in the component YAML)

4. Machine Readable Component Specification

Refer to the ODA Component Directory on the TM Forum website for the machine-readable component specification files for this component.

5. References

5.1. TMF Standards related versions

Standard	Version(s)
eTOM	v23.0
SID	v25.0
Functional Framework	v24.0

5.2. Jira References

- ISA-642 - Review Function 327 - Remittance Details Access (SME REVIEW): review Function 327 - Remittance Details Access name and definition
- ISA-643 - Review Functions 156 - Collection Payment Planning and Function 157 - Collection Payment Plan Monitoring definitions (SME REVIEW): review Functions 156 & 157 definition (delete link to dunning)
- ISA-644 - Review Function 200 - Customer Loyalty Prize selection classification (BACKLOG): review Function 200 - Customer Loyalty Prize Selection classification (not in Payment Mgt)

5.3. Further resources

1. IG1228: please refer to IG1228 for defined use cases with ODA components interactions.

6. Administrative Appendix

6.1. Document History

6.1.1. Version History

Version Number	Date	Modified by	Description of changes
1.0.0	07-Dec-2023	Goutham Babu	Final edits prior to publication
1.0.1	25-Jul-2023	Ian Turkington	No content changed, simply a layout change to match template 3. Separated the YAML files to a managed repository.
1.0.1	15-Aug-2023	Amaia White	Final edits prior to publication
1.1.0	16-Apr-2024	Gaetano Biancardi	Component template updated; eTOM process renamed from "Customer Bill Payments & Receivables Management" to "Customer Receivable Management"
1.1.0	02-May-2024	Amaia White	Final edits prior to publication
1.2.0	18-Nov-2024	Gaetano Biancardi	TMF688 removed from the core specification, moved to supporting functions; TMF672 removed from the core specification, moved to supporting functions; API version, only major version to be specified
1.2.0	27-Dec-2024	Rosie Wilson	Final edits prior to publication
1.2.1	09-Jul-2025	Rosie Wilson	Updates to description per agreed YAML updated on 03-Jun-2025
1.2.1	15-Jul-2025	Rosie Wilson	Final edits prior to publication

6.1.2. Release History

Release Status	Date Modified	Modified by	Description of changes
Pre-production	07-Dec-2023	Goutham Babu	Initial release
Pre-production	23-Jan-2023	Adrienne Walcott	Updated to Member Evaluated status
Pre-production	15-Aug-2023	Amaia White	New release 1.0.1

Production	06-Oct-2023	Adrienne Walcott	Updated to reflect TM Forum Approved status
Pre-production	02-May-2024	Amaia White	New release 1.1.0
Production	28-Jun-2024	Adrienne Walcott	Updated to reflect TM Forum Approved status
Pre-production	27-Dec-2024	Rosie Wilson	New release 1.2.0
Production	07-Mar-2025	Adrienne Walcott	Updated to reflect TM Forum Approved status
Pre-production	15-Jul-2025	Rosie Wilson	New release 1.2.1
