TMFC030 – Bill Generation Management

1. Overview

Component Name	ID	Description	ODA Function Block
Bill Generation Management	TMFC030	The Bill Generation component is responsible for Party invoice management. It addresses the invoice formatting, presentation and dispatching via the appropriate means of communication.	Party Management

2. eTOM Processes, SID Data Entities and Functional Framework Functions

2.1. eTOM business activities

eTOM business activities this ODA Component is responsible for:

Identifier	Level	Business Activity Name	Description
1.3.9	L2	Customer Bill Invoice Management	Ensure the bill invoice is created, physically and/or electronically produced and distributed to customers, and that the appropriate taxes, discounts, adjustments, rebates and credits for the products and services delivered to customers have been applied.
1.3.9.2	L3	Create Customer Bill Invoice	Production of a timely and accurate invoice in accordance with the specific billing cycles and reflective of the final charges for services, together with any adjustments, delivered to the customer by the Service Provider and respective other parties.

1.3.9.2.1	L4	Render & Format Customer Invoice	Render and format the customer bill invoice.
1.3.9.2.2	L4	Deliver Electronic Invoice	Deliver the electronic copy of an invoice to customers.
1.3.9.2.3	L4	Verify Customer Invoice Quality	Verify Customer invoice quality before distribution to the customer in electronic form and the process responsible for physical invoice production and distribution.
1.3.9.2.4	L4	Manage Customer Invoice Quality	Store the customer invoice for a period of time is to address regulation and/or internal requirements, during which they can be accessed to support any customer or regulator agency inquiries on bill invoices.
1.3.9.3	L3	Produce & Distribute Customer Bill	Physical production and distribution of bills to customers in accordance with the specified billing cycle.
1.3.9.3.1	L4	Co-ordinate Billing Insertion	Co-ordinate with promotional processes for any billing insertions to be included with the bill.
1.3.9.3.2	L4	Establish & Manage Bill Production Cycle	Establish and manage the physical bill production cycle.
1.3.9.3.3	L4	Deliver Invoice Information	Deliver the invoice information to the physical production processes.
1.3.9.4	L3	Pricing, Discounting, Adjustments & Rebates Application	Ensure that the bill invoice is reflective of all the commercially agreed billable events and any bill invoice adjustments agreed between a Service Provider and the customer.
1.3.9.4.2	L4	Apply Pricing, Discounting, Adjustments & Rebates to Customer Account	Determine the customer account or customer specific pricing, charges, discounts, and taxation that should be delivered to the invoice(s) for the customer.

1.6.15	L2	BP Bill/Invoice Management	Business Partner Bill/Invoice Management manages the Business Partner bill/invoice process, controls bills/invoices, manages the lifecycle of bills/invoices. A bill is a notice for payment which is supposed to be preceded by an invoice in most cases.
1.6.15.2	L3	BP Bill/Invoice Control	Establish and maintain Business Partner bill invoice formats, maintain lists of parties who are eligible for receiving bills/invoices, and define the billing cycles.
1.6.15.2.1	L4	Establish & Maintain BP Bill Invoice Format	Establish and maintain BP bill invoice formats, and any interaction with specific parties to modify the format.
1.6.15.2.2	L4	Maintain Bill Invoice BP List	Maintain lists of parties who are eligible for receiving bills/invoices.
1.6.15.2.3	L4	Define BP Billing Cycle	Define the billing cycles and their dates according to cash flow needs as established by financial management processes.
1.6.15.3.2	L4	Create BP Bill/Invoice	Produce a timely and accurate bill/invoice in accordance with a specific billing cycle, on demand after the purchase of an offering, on request by a BP, and so forth. Ensure that a bill/invoice is reflective of the final charges for products, together with (this looks same as above and incomplete)
1.6.15.3.3	L4	Distribute BP Bill/Invoice	Provide bills/invoices to one or more parties and ensure the delivery of bills/invoices to one or more parties.
1.6.15.3.4	L4	Manage BP Bill/Invoice Archive	Store a BP bill/invoice for a period of time to address regulation and/or internal requirements, during which it can be accessed to support any BP, such as a government/regulator agency or internal BP, inquiries about a bill/invoice.

1.6.15.3.5	L4	Receive BP Bill/Invoice	Receive and record the bill/invoice from a BP . Compare a BP bill/invoice against all transactions with the BP that would result in a bill/invoice being sent to the enterprise. Manage the interactions between a BP and an enterprise. Approve a BP bill/invo
1.6.15.3.6	L4	Administer Commercial Arrangement for BP Bill/Invoice Creation Capability	Establish the requirements for, and manage the agreed commercial arrangements with, appropriate outsourced parties of the creation capabilities.

2.2. SID ABEs

SID ABEs this ODA Component is responsible for:

SID ABE Level 1	SID ABE Level 2 (or set of BEs)	SID ABE L1 Definition	SID ABE L2 Definition
Customer Bill		The Customer Bill ABE represents the specification of different formats of CustomerBill, the schedule of the production of bills and the Customer Bills themselves.	<i>(no description available)</i>

2.3. eTOM L2 - SID ABEs links

2.4. Functional Framework Functions

Function ID	Function Name	Function Description	Aggregate Function Level 1	Aggregate Function Level 2
65	Bill Image Presentation	Bill Image Presentation provides presentation of an exact bill image or after invoking a transactional document generation function.	Invoice Management	Invoicing
62	Invoice Items Listing	Invoice Items Listing lists all invoice items for a specific invoice.	Invoice Management	Invoicing
63	Invoice Listing	Invoice Listing function will list all invoices for a customer both over time and for customers with multiple invoices.	Invoice Management	Invoicing

329	Invoice Tax Calculation	"Invoice Tax Calculation provides the necessary functionality to calculate taxes, including surcharges and fees, where applicable. / This function can occur within the Invoicing application or through the use of an external Tax module."	Invoice Management	Invoicing
309	Invoice Balance Calculation	Provides the means to calculate the balance due for an invoice/bill.	Invoice Management	Invoicing
310	Invoice Charges Compilation	Invoice Charges Compilation assembles charges (including charge distribution- charges incurred by other customers), credits, taxes, fees and adjustments that affect the balance due.	Invoice Management	Invoicing
312	Invoice Detail Collection	Provides appropriate levels of detail regarding items on the invoice. This detail is provided to revenue reporting and/or Bill Format & Render.	Invoice Management	Invoicing
311	Invoice Totals Calculation	Provides subtotals and totals at various levels.	Invoice Management	Invoicing

3. TM Forum Open APIs & Events

The following part covers the APIs and Events; this part is split in 3: - List of Exposed APIs - This is the list of APIs available from this component. - List of Dependent APIs - In order to satisfy the provided API, the component could require the usage of this set of required APIs. - List of Events (generated & consumed) - The events which the component may generate are listed in this section along with a list of the events which it may consume. Since there is a possibility of multiple sources and receivers for each defined event.

3.1. API Context Diagram

(SVG source: [TMFC030_API_Context.svg](#) — hand-drawn rather than PlantUML for this one diagram, since PlantUML's automatic layout couldn't give each API its own straight, individually-anchored connector at a chosen height. Generated by the *component-specification-documentation skill's scripts/render_api_context_svg.py*.)

3.2. Exposed APIs

API ID	API Name	Mandatory / Optional	API Version	Resource	Operations
TMF678	Customer Bill Management API	Mandatory	5	billCycle customerBill customerBillOnDemand	GET GET /id POST PATCH /id
TMF678	Customer Bill Management API	Mandatory	4	customerBillOnDemand customerBill billCycle	GET POST GET /id PATCH /id
TMF701	UNRESOLVED-TMF701	Optional	4	processFlow taskFlow	GET GET /id POST DELETE /id PATCH /id

3.3. Dependent APIs

API ID	API Name	API Version	Mandatory / Optional	Resource	Operations
TMF666	Account Management API	5	Mandatory	billFormat billPresentationMedia billingAccount billingCycleSpecification	GET GET /id
TMF666	Account Management API	4	Mandatory	billingAccount billingCycleSpecification billFormat billPresentationMedia	GET GET /id GET /id
TMF632	Party Management API	5	Mandatory	individual organization	GET GET /id
TMF632	Party Management API	4	Mandatory	individual organization	GET GET /id
TMF676	Payment Management API	4	Optional	payment refund	GET GET /id POST

TMF667	Document Management API	4	Optional	document	GET GET /id POST
TMF637	Product Inventory Management API	5	Optional	product	GET GET /id
TMF637	Product Inventory Management API	4	Optional	product	GET GET /id
TMF669	Party Role Management API	5	Mandatory	partyRole	GET GET /id
TMF669	Party Role Management API	4	Mandatory	PartyRole	GET GET /id
TMF701	UNRESOLVED-TMF701	4	Optional	processFlow taskFlow	POST GET GET /id PATCH

3.4. Events

The diagram illustrates the Events which the component may publish and the Events that the component may subscribe to and then may receive. Both lists are derived from the APIs listed in the preceding sections.

Published Events

(none listed in the component YAML)

Subscribed Events

API ID	API Name	Event Resources
TMF669	Party Role Management API	partyRoleAttributeValueChangeEvent partyRoleStateChangeEvent partyRoleDeleteEvent

4. Machine Readable Component Specification

Refer to the ODA Component Directory on the TM Forum website for the machine-readable component specification files for this component.

5. References

5.1. TMF Standards related versions

Standard	Version(s)
eTOM	v23.0
SID	v25.0
Functional Framework	v23.0

5.2. Jira References

- SID: to be updated to separate Customer Bill ABE from Party Bill ABE - ISA-847 - TMFC030: Bill Generation Management - SID update request (BACKLOG)
- eTOM: to review L3/L4 mapping for (FX-1225): Produce & Distribute Customer Bill; Pricing, Discounting, Adjustments & Rebates Application; BP Bill/Invoice Management

- OpenAPI: TMF678_Customer_Bill_Management remove following resources - AP-4648 - TMFC030: Bill Generation Management (DONE): Bill Cycle, Bill Cycle Specification
- ODA Component: add new component for Party Communication Mgmt

5.3. Further resources

1. IG1228: please refer to IG1228 for defined use cases with ODA components interactions.

6. Administrative Appendix

6.1. Document History

6.1.1. Version History

Version Number	Date	Modified by	Description of changes
1.0.0	27-Sep-2023	Gaetano Biancardi	Final edits prior to publication
2.0.0	21-Nov-2023	Gaetano Biancardi	Functional Framework added: 309 Invoice Balance Calculation, 310 Invoice Charges Compilation, 312 Invoice Detail Collection, 311 Invoice Totals Calculation; Open API: TMF666 removed "appliedCustomerBillingRate" resource and related API methods
2.1.0	19-May-2024	Gaetano Biancardi	Updated to new component template; updated to ODF v23.5; removed TMF672 as mandatory dependent API; exposed API removed: TMF688 Event Mgmt, TMF672 User Roles and Permissions; dependent API removed: TMF688 Event Mgmt
2.1.0	12-Jul-2024	Amaia White	Final edits prior to publication
2.2.0	21-Oct-2024	Gaetano Biancardi	Dependent API: added TMF678 Customer Bill Mgmt to retrieve appliedCustomerBillingRate; exposed API: added POST to TMF678 Customer Bill resource

2.2.0	03-Dec-2024	Elisabeth Andersson	Updated YAML file to remove TMF688 and TMF672 from the core specification, as the two APIs are moved to supporting functions
2.2.0	27-Dec-2024	Rosie Wilson	Final edits prior to publication
3.0.0	28-Oct-2025	Julien Rouland	Updated the SID part to include party bill cycle, and updated the exposed API resources associated (TMF678); removed following functions in overlap with bill calc: 1.3.9.4 Pricing, Discounting, Adjustments & Rebates Application, 1.3.9.4.2 Apply Pricing, Discounting, Adjustments & Rebates to Customer Account
3.0.0	19-Nov-2025	Rosie Wilson	Updated description; final edits prior to publication
3.1.0	25-Jun-2026	Sannah Sibaya	Final edits prior to publication

6.1.2. Release History

Release Status	Date Modified	Modified by	Description of changes
Pre-production	20-Oct-2023	Amaia White	Initial release of document
Pre-production	20-Nov-2023	Adrienne Walcott	Updated to Member Evaluated status
Pre-production	20-Dec-2023	Amaia White	New version release 2.0
Production	09-Feb-2024	Adrienne Walcott	Updated to reflect TM Forum Approved status
Pre-production	12-Jul-2024	Amaia White	New version release 2.1.0
Production	30-Aug-2024	Adrienne Walcott	Updated to reflect TM Forum Approved status
Pre-production	27-Dec-2024	Rosie Wilson	Updated to version 2.2.0
Production	07-Mar-2025	Adrienne Walcott	Updated to reflect TM Forum Approved status
Pre-production	19-Nov-2025	Rosie Wilson	Updated to version 3.0.0

Pre-production	25-Jun-2026	Sannah Sibaya	Updated to version 3.1.0
----------------	-------------	---------------	--------------------------
