TMFC036 – Lead and Opportunity Management

1. Overview

Component Name	ID	Description	ODA Function Block
Lead and Opportunity Management	TMFC036	Lead and Opportunity Management component provides the functionality for lead and opportunity capture, qualification, reporting, and support during the pre-sales stage.	Party Management

2. eTOM Processes, SID Data Entities and Functional Framework Functions

2.1. eTOM business activities

eTOM business activities this ODA Component is responsible for:

Identifier	Level	Business Activity Name	Description
1.1.11	L2	Contact/Lead/Prospect Management	Develop the appropriate relationships with contacts, leads, and prospects with the intent to convert them to consumers, such as customers, or providers, such as partners, of an enterprise's offerings.
1.1.11.1	L3	Manage Sales Contact	Manage all sales contacts between potential or existing parties and the enterprise.
1.1.11.2	L3	Manage Sales Lead	Collect and administer a sales lead and the associated probabilities of the lead becoming a prospect.

1.1.11.3	L3	Manage Sales Prospect	Match a sales prospect with the most appropriate products and ensure that a prospect is handled appropriately.
1.1.9	L2	Selling	Responsible for managing prospective customers, for qualifying and educating customers, and matching customer expectations / Managing prospective parties with whom an enterprise may do business, such as potential existing or new customers and partners, for qualifying and educating them, and ensuring their expectations are met.
1.1.9.1	L3	Qualify Selling Opportunity	Ensure that a sales prospect is qualified in terms of any associated risk and the amount of effort required to achieve a sale.
1.1.9.3	L3	Acquire Sales Prospect Data	Capture and record all pertinent sales prospect data required for qualifying an opportunity and for the initiation, realization and deployment of the agreed sales proposal.
1.1.7	L2	Market Sales Support & Readiness	Market Sales Support & Readiness processes ensure the support capability is in place to allow the CRM Fulfillment, Assurance and Billing processes to operate effectively.
1.1.7.2	L3	Support Selling	Administer and manage the operation of the various sales channels and to ensure that there is capability (for example, information, materials, systems and resources) to support the Selling processes.
1.1.7.5	L3	Manage Sales Accounts	Manage the sales accounts assigned to the sales channel on a day-day basis.

2.2. SID ABEs

SID ABEs this ODA Component is responsible for:

SID ABE Level 1	SID ABE Level 2 (or set of BEs)	SID ABE L1 Definition	SID ABE L2 Definition
Sales Lead and Opportunity	Sales Lead	Sales Lead and Opportunity ABE provides the ability to track sales leads through their life cycle up until the time the prospect become customers, including proposals made to potential customers, and the amount of potential revenue the leads represent in the form of a sales pipeline.	Sales Lead ABE provides the ability to track sales leads through their lifecycle up until the time the prospect becomes a customer.
Sales Lead and Opportunity	Sales Opportunity	Sales Lead and Opportunity ABE provides the ability to track sales leads through their life cycle up until the time the prospect become customers, including proposals made to potential customers, and the amount of potential revenue the leads represent in the form of a sales pipeline.	Sales Opportunity ABE provides the ability to track pending deals and the amount of potential revenue the leads represent in the form of a sales pipeline including proposals made to potential customers.

2.3. eTOM L2 - SID ABEs links

2.4. Functional Framework Functions

Function ID	Function Name	Function Description	Aggregate Function Level 1	Aggregate Function Level 2
394	Sales Aids Support	Sales Aids Support provides job aids functions to access active aids like template or wizard types of context-aware scripting to e.g. aid lead qualification as an example.	Sales Management	Opportunity Management
372	Sales Opportunity Management	Sales Opportunity Management creates, manages and develop sales opportunities for customers.	Sales Management	Opportunity Management
375	Funnel Assigning	Funnel Assigning provides the necessary functionality to assign sales personnel to leads within a given funnel/pipeline.	Presales Management	Sales Lead Management

374	Funnel Creation	Funnel Creation provides the necessary functionality to create a new sales funnel or pipeline	Presales Management	Sales Lead Management
376	Funnel Leads Tracking	Funnel Leads Tracking provides the necessary functionality to track and manage the funnel process of the various leads and opportunities.	Presales Management	Sales Lead Management
726	Sales Lead Capturing	Sales Lead Capturing handles the generation of leads. A lead can be generated from many sources and customer interactions including the result of a targeted marketing campaign. Potential customer information is obtained from external sources or from internally generated data.	Presales Management	Sales Lead Management

3. TM Forum Open APIs & Events

The following part covers the APIs and Events; this part is split in 3: - List of Exposed APIs - This is the list of APIs available from this component. - List of Dependent APIs - In order to satisfy the provided API, the component could require the usage of this set of required APIs. - List of Events (generated & consumed) - The events which the component may generate are listed in this section along with a list of the events which it may consume. Since there is a possibility of multiple sources and receivers for each defined event.

3.1. API Context Diagram

(SVG source: [TMFC036 API Context.svg](#) — hand-drawn rather than PlantUML for this one diagram, since PlantUML's automatic layout couldn't give each API its own straight, individually-anchored connector at a chosen height. Generated by the *component-specification-documentation skill's scripts/render_api_context_svg.py*.)

3.2. Exposed APIs

API ID	API Name	Mandatory / Optional	API Version	Resource	Operations
TMF699	Sales Management API	Mandatory	4	salesLead salesOpportunity	GET GET /id POST PATCH DELETE
TMF701	Process Flow Management API	Optional	4	processFlow taskFlow	POST GET GET /id DELETE PATCH

3.3. Dependent APIs

API ID	API Name	API Version	Mandatory / Optional	Resource	Operations
TMF632	Party Management API	5	Optional	individual organization	GET GET /id
TMF632	Party Management API	4	Optional	individual organization	GET GET /id
TMF669	Party Role Management API	5	Optional	partyRole	GET GET /id
TMF669	Party Role Management API	4	Optional	partyRole	GET GET /id
TMF620	Product Catalog Management API	5	Optional	productOffering productOfferingPrice	GET GET /id
TMF620	Product Catalog Management API	4	Optional	productOffering productOfferingPrice	GET GET /id
TMF651	Agreement Management API	4	Optional	agreement agreementSpecification	GET GET /id
TMF648	Quote Management API	4	Optional	quote	GET GET /id
TMF622	Product Ordering Management API	5	Optional	productOrder	GET GET /id

TMF622	Product Ordering Management API	4	Optional	productOrder	GET GET /id
TMF701	Process Flow Management API	4	Optional	processFlow taskFlow	POST GET GET /id DELETE PATCH

3.4. Events

The diagram illustrates the Events which the component may publish and the Events that the component may subscribe to and then may receive. Both lists are derived from the APIs listed in the preceding sections.

Published Events

API ID	API Name	Event Resources
TMF699	Sales Management API	SalesLeadCreateEvent SalesLeadAttributeValueChangeEvent SalesLeadStateChangeEvent SalesLeadDeleteEvent SalesOpportunityCreateEvent SalesOpportunityAttributeValueChangeEvent SalesOpportunityStateChangeEvent SalesOpportunityDeleteEvent

4. Machine Readable Component Specification

Refer to the ODA Component Directory on the TM Forum website for the machine-readable component specification files for this component.

5. References

5.1. TMF Standards related versions

Standard	Version(s)
eTOM	v23.0
SID	v25.0
Functional Framework	v23.0

5.2. Jira References

eTOM - [ISA-710] 1.1.7.4 - Manage Sales Inventory to be reviewed: as currently defined this inventory mixes information related to Lead and Opportunities Management (sales prospects) and information related to customer orders (actual sales, sales commissions). Do we really need eTOM activities for inventories management? And if yes the scope here corresponds to historic CRM solutions we need to split in smaller pieces. This L3 needs to be reviewed and at least duplicate entries need to be deleted, and granularity of information managed needs to be improved. - [ISA-711] eTOM 1.1.9 - Selling to be reviewed: this L2 mixes activities related to Opportunity and Sales Prospects, but also others related to quotation (sales proposal) or product order initialization (cross/up-sell, negotiate sales/contract). A clearer separation is needed.

SID - [ISA-712] Sales Lead & Opportunity ABE improvements: - 2 level 2 ABEs could be created for Sales Lead and for Sales Opportunity - A relationship between Sales Lead (resp. Sales Opportunity) and Customer Product Order could be added - A relationship between Sales Opportunity and Agreement could also be added

Functional Framework - [ISA-713] Functional FK - review Sales Opportunity Aggregate Function content: most of the functions classified in this Aggregate Function are not related to Sales Opportunity but to quotation or customer product order, so they need to be moved - or deleted if duplicates.

Open APIs TMF699 Sales Management API: - This API covers Sales Lead and Sales Opportunity management. Sales quotation, as announced in the introduction as covered later, is in fact already covered (or should be) by TMF648 Quote Management. - In the resource model of this API the link between Sales Opportunity and Sales Quote BEs is missing. - This API appears in the Early Adoption page only: it needs to be released soon.

5.3. Further resources

1. IG1228: please refer to IG1228 for defined use cases with ODA components interactions.

6. Administrative Appendix

6.1. Document History

6.1.1. Version History

Version Number	Date	Modified by	Description of changes
1.0.0	13-Apr-2023	Amaia White	Final edits prior to publication
1.0.1	25-Jul-2023	Ian Turkington	No content changed, simply a layout change to match template 3.
1.0.1	15-Aug-2023	Amaia White	Final edits prior to publication
1.1.0	05-Aug-2024	Gaetano Biancardi	Applied new Component Template; dependent API removed: TMF688 Event Management; exposed API removed: TMF688 Event Management
1.1.0	06-Sep-2024	Amaia White	Final edits prior to publication
1.2.0	18-Nov-2024	Gaetano Biancardi	API version, only major version to be specified
1.2.0	27-Dec-2024	Rosie Wilson	Final edits prior to publication
1.2.1	09-Jul-2025	Rosie Wilson	Updates to description per agreed YAML updated on 03-Jun-2025; final edits prior to publication

6.1.2. Release History

Release Status	Date Modified	Modified by	Description of changes
Pre-production	13-Apr-2023	Amaia White	Initial release
Pre-production	15-May-2023	Adrienne Walcott	Updated to Member Evaluated status

Pre-production	15-Aug-2023	Amaia White	New release v1.0.1
Production	06-Oct-2023	Adrienne Walcott	Updated to reflect TM Forum Approved status
Pre-production	06-Sep-2024	Amaia White	New release v1.1.0
Production	01-Nov-2024	Adrienne Walcott	Updated to reflect TM Forum Approved status
Pre-production	27-Dec-2024	Rosie Wilson	New release v1.2.0
Production	07-Mar-2025	Adrienne Walcott	Updated to reflect TM Forum Approved status
Pre-production	09-Jul-2025	Rosie Wilson	New release v1.2.1
